Royal Berkshire Fire and Rescue Service

Royal Berkshire Fire and Rescue Service (RBFRS) provides prevention, protection and response services across the County of Berkshire. Twelve wholetime and five on-call fire stations cover 488 square miles, from Langley in the East to Lambourn in the West. It serves a diverse cultural population of approximately 910,000, 24 hours a day, 365 days a year.

Within the CRMP, we have set the following priorities for the next four years:

- We will develop our Integrated Service Delivery Strategy to meet the changing profile of risk in Berkshire due to climate change, societal and technological shifts.
- We will develop a Risk Based Prevention Programme to target those most vulnerable and at risk from emergency incidents.
- We will develop our response model to ensure that we are providing the most effective response to incidents within Berkshire, ensuring that it is sustainable and provides value for money.
- We will review the incidents we attend and reconsider whether we should continue to go to those that do not form part of our core statutory responsibilities.
- We will develop our Fire Protection service to support the resilience of businesses, to ensure the safety of all people using buildings covered by the building safety act and Regulatory Reform (Fire Safety) Order 2005 and to ensure that our enforcement role is effective and clear.
- We will provide a minimum of 14 frontline fire appliances utilising our Wholetime and on-call staff as effectively as possible.
