

Dear Parent / Guardian

Royal Berkshire Fire and Rescue Service have recently been into your child's school to carry out a Fire Safety Session. The aim of the visit was to educate young people on key fire safety messages and their significance in order to facilitate a change of behaviours and attitudes towards fire safety and ultimately, build stronger foundations for the future.

To help reinforce learning from the session, we would ask that you take a few moments to discuss with your child what they learnt during their Fire Safety Session, with the workbook as a guide. We would also request that the young people, with the support of their families, complete a number of **homework activities** contained within the workbook, including -

- Smoke Alarms: My Weekly Test Calendar
- My Escape Plan
- In the event of a fire!
- Calling 999 in an Emergency

There is also an online **Fire Safety Quiz** that we would love for the young people to independently complete, where online access is available. To underpin learning further, there are also a number of supporting **videos** that cover the main themes of the Fire Safety Session, available to watch by the whole family at home.

To access both the Fire Safety Quiz and supporting videos, as well as a number of other key resources, please scan the QR code or visit - **www.rbfrs.co.uk/firesafetysession**

Matches and lighters are tools, not toys! Always remember to keep matches and lighters out of the reach of children
